16th International Meeting on Early and Preschool Education: Comprehensive Early Childhood Development, Inclusion, and Attention to Diversity

Monterrey, Mexico | October 12 – 15, 2016

"There can be no keener revelation of a society's soul than the way in which it treats its children."

Nelson Mandela

Why does business care about early childhood?

"Because the first step in the process of producing globally competitive adults is to produce school ready five year olds. After about 15 years of effort, the Business Roundtables and Chambers of Commerce in every state now supports early childhood investment"

Rob Dugger, Ready Nation 2016

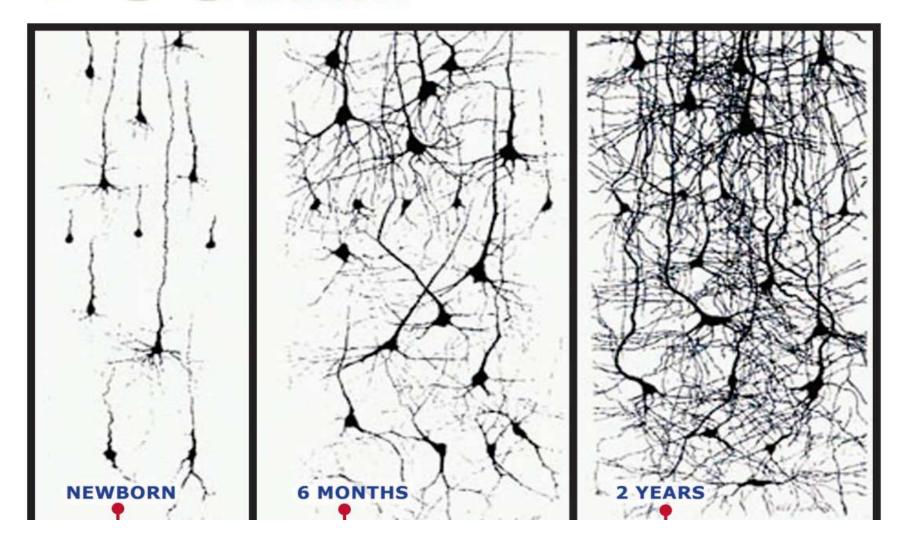

Reasons for investing in early child development

Dry economic logic – high returns to investing in children

 More so, beyond pure economic reasons, it relates to social linkages- abilities to live with others, to participate in social activities and avoid social disasters (A. Sen), i.e development that improves people's lives by improving peoples' capabilities.

Cost of Inaction

About 250 million children under 5 are at risk of not reaching their full potential

About 25% reduction in average adult earning potential

Countries may lose up to 2 or 3 fold what they now invest in health or education

Early childhood development pays off

Better health and learning capacity

Increased adult earning

Poverty reduction

Fewer inequalities

More peaceful societies

Nurturing care means supporting parents and caregivers to:

Breastfeed and provide nutritious food

Maintain good health during conception, pregnancy and in the postnatal period

Provide a nurturing and safe environment

Give their children opportunities to explore and learn
